

AWNINGS & BRACKETS

Create your perfect outdoor space.

Create the perfect outdoor space

Combining beautiful design and functionality, our range of 3 awnings has been designed and developed to provide a versatile weather solution, whatever the application.

Designed and manufactured in the UK.

“The awning was easy to install and looks great. It provides excellent shade and protection from the elements. The fabric is strong and durable and the colors are really vibrant.”

Terrace Awnings

Built to last

Built to the highest standard, our awnings are designed to perfectly complement your business, home and lifestyle. Manufactured in the UK, all of our awnings are UKCE/CE approved and load tested for wind and water. Our awning motors are also covered by a comprehensive five year manufacturers guarantee for added peace-of-mind.

Enjoy your outside space for longer

A patio awning is a great way to enjoy the outdoors while still having the protection from the elements. Providing shade from the sun and even privacy from neighbours. It can also add a decorative element to your outdoor space, and can be used to extend the living space of your home. Sun and wind sensors allow your awning to operate automatically, protecting itself in the event of high winds.

At home

Create the ideal outdoor space for your family. Available in a variety of designs and fabrics, you can choose an awning that complements your home perfectly. Retractable patio awnings not only provide shade from the sun but also add a distinct look to your home's exterior.

Your outdoor space becomes an extension of the indoors. Children can play safely with protection from the sun's harmful rays, you can enjoy entertaining in a cool shaded area that will be the talk of the party or simply enjoy sitting back and having a relaxing moment or two to yourself while the world goes on around you.

Commercial and retail use

Make sure your business stands out from the crowd with a retractable awning. Available with a choice of high quality fabrics, we're confident that you'll find an awning that matches and enhances your brand.

Our awnings are supplied with high performance Acrylic fabrics which are ideal for commercial use. Awnings offer an affordable way of providing more space to promote and sell your products, or to offer cover for additional outdoor seating areas.

Education

Making outdoor play and learning safer on younger skin. Turn outside areas into pleasant places to sit, play and learn with intelligent retractable awnings. Encourage outdoor play with a stylish and practical addition to the playground.

Made in the UK

UK manufactured awnings supplied with a high performance Acrylic fabric.

Enjoy your terrace in any weather with our range of 3 contemporary patio awnings

Our quality Terrace awnings collection offers a cool terrace whilst keeping the indoors a comfortable temperature and furniture protected from fading colours by the bright sunshine.

Hastings

Tenby

Weymouth

Total freedom

Our awnings are primarily used for terrace or patio applications. Thanks to their special construction, this type of awning offers you total freedom of movement beneath the sun protection system and therefore the possibility to furnish the terrace as you like.

Convenience

We offer you an extensive range of options including controls, sensors and fabrics so you can achieve the perfect style awning for your home, business or educational setting.

Controls and sensors

Choose from our range of controls and sensors to make sure you get the most from your awning.

See page 8

Tricky installations

We have a range of awning brackets to circumvent gutters, drainage and uneven substrates.

See page 9

Fabrics

The design of your awning can really transform the look and feel of your outside space; choose from our range of stunning high-performance fabrics.

The Sun Collection Hastings

Hastings

The Hastings, a highly popular terrace awning due to its design and the wide range of colours.

The adjusting device of the Hastings is covered behind beautifully finished teardrop covers. These stylistic features do not detract from its quality at all. It can be installed in almost every situation due to its unique installment possibilities. If you are looking for a stylish and high quality terrace awning, then Hastings is the model for you.

Characteristics

- Wide range of colour options
- Fabric fully protected in cassette
- Appealing teardrop design
- Available with or without valance
- Available with manual or electrical control system
- SITUO 1 hand set as standard

Maximum Dimensions

	Width	Projection
Hastings	6000 mm	2500 mm
Hastings	5500 mm	3000 mm

Cassette Colours

Pure white

Anthracite grey textured

Certifications

- Lifespan - Class 3
- Water Resistance - Class 2
- Wind Resistance - Class 2

Tenby

A unique design by Jan des Bouvrie, Netherlands' best known interior and exterior designer.

The minimalist design of this terrace awning is largely characterised by its rectangular cassette, which cuts a fine figure against the facade, both when open and closed. If you are a design enthusiast, who wants to combine style with all the benefits of a high quality terrace awning, then the Jan des Bouvrie model is the solution for you.

Characteristics

- Fabric fully protected in cassette
- Unique design by Jan des Bouvrie
- Stylish design on any facade, when open and closed
- Wall-mounting concealed behind the awning
- Available with electrical control system
- SITUO 1 hand set as standard

Maximum Dimensions

	Width	Projection
Tenby	6500 mm	2500 mm
Tenby	6250 mm	3000 mm

Cassette Colours

Wall Mounted

Weymouth

Weymouth's distinguishing features are its olive-shaped appearance, unique adjustment settings and substantial dimensions.

As a larger version of a Hastings, the Weymouth is also an attractive addition to your facade, when closed. If you are looking for a stylish and high quality terrace awning with stunning looks, then Weymouth is your model.

Characteristics

- Fabric fully protected in cassette
- Unique olive-shaped design
- Available with or without valance
- Available electrical control system only
- SITUO 1 hand set as standard

Options and Accessories

Choose from our range of accessories to make sure you get the most from your awning.

Wireless Handsets

3 specially designed hand transmitters designed to let you control your awning and additional remote control accessories at the touch of a button.

Situo 1 Solaris RTS Pure II

A single channel remote to control your awning. Comes with a wall bracket.
(Supplied as standard)

Situo 5 Solaris RTS Pure II

A 5-channel remote to control multiple awnings from one device, or additional accessories. Comes with a wall bracket.

Smoove 1 RTS Wall Switch Pure

The stylish and easy to use Smoove Wall Switch allows you to wirelessly control your awning with its touch sensitive display. Handy for when you misplace the remote.

Terrace Awnings

Sensors

Our range of sensor options provide extra peace-of-mind by monitoring vibration, sunlight and/or wind to automatically control your awning – preventing fabric from being torn and prolonging the life of the awning.

Eolis RTS (Wind Sensor)

The Eolis RTS wind sensor automatically retracts the awning in strong winds (wind strength threshold can be adjusted). Requires a 230V mains supply.

Eolis 3D WireFree RTS (Vibration Sensor)

This battery powered wind sensor detects vibrations from high winds and automatically retracts your patio awning to protect the fabric, mechanism and your property, even in your absence.

Solaris RTS (Sun and Wind Sensor)

A combined sun and wind sensor that will extend or retract awnings as the sun comes out or goes in, with priority to retract when wind speeds exceed a preset value (from 10 to 50 kph). Requires a 230V mains supply.

Sunis Outdoor WireFree RTS (Sun Sensor)

A solar-powered, 100% autonomous radio sun sensor that automatically controls your awning, providing automatic sun protection.

Awning Brackets

In most circumstances, our awnings can be fitted directly to masonry. For installations where that's not possible, we've developed a broad range of awning brackets to provide additional support and/or to circumvent obstacles such as guttering or uneven walls. We can also offer bespoke designs to suit specific requirements.

Standard

Designed to give flexibility when installing patio awnings they help to give extra height when installing around a gutter, spreading the load down the way.

Goal Post

Where there is no option to fit the awning directly above the building or structure. These can be bolted to the wall at each end or freestanding in the ground.

Free Standing

Our free-standing range is designed to allow installation of an awning on its own, without fixing directly to a building or nearby structure.

IRISUN

Acrylic Fabrics

IRISUN fabrics are created to the highest quality and design.

We offer 3 kinds of awning fabric. Each one is created to the highest standards and comes in a variety of combinations.

SOLID

STRIPED

TEXTURED

Care and cleaning

Remove heavy dirt with running water. Use a soft cloth or brush to clean the awning fabric, avoid strong rubbing. To remove mold, use white vinegar then rinse several times with water. Do not use aggressive detergents, alkaline or acid substances, oxidizers like hypochlorite or hydrogen peroxide. Let the awning dry well before rolling up.

Characteristics

- High resistance of the colours to UV.
- Duraclean treatment for high water-repellency and strong anti-dirt characteristics.
- 10-year warranty

Important Notes on Colour

The printing process does not allow exact reproduction of the paint and fabric colours. If you are unsure of your colour choice please ask your supplier for a sample. Colour references quoted are the nearest standard RAL or BS references to the colours used. They will not be an exact match and are intended as a guide only.
